

Measuring Services for Real Estate Business

ProMeasuring is a nationwide measuring service that generates computerized floor plans and estimates all materials and labor required on flooring projects of any size.

Our turn-key solution for realtors combines experienced measuring technicians with the world's premier flooring estimation software to provide a fast, accurate and cost-effective alternative to traditional measuring operations.

BENEFITS

- ✓ Every measurement we provide is **GUARANTEED** to meet state and local accuracy requirements
 - Measures are completed with the FloorWizard estimation system currently used by many of the largest flooring installers in the U.S. and Canada.
- ✓ No contracts or commitments are required
- ✓ Most measures are completed in 1 – 3 days
- ✓ We deliver a standard PDF which includes:
 - Drawings for each room
 - Floor plans for each level
 - Additional room details:
 - Finished and unfinished areas
 - Conditioned and unconditioned areas
 - Square footage (net area) of each room and level
 - Dimensions of each room
 - Description of existing flooring in each room
 - Pictures of all staircases (and other rooms upon request)
- ✓ Schedule measuring appointments quickly and easily from any internet device
